

SuiteCRM – open source CRM system developed by Salesagility

We are using SuiteCRM, an open source CRM. If you are not familiar with it, you can find a demo here:

<https://suitecrm.com/demo>

We encountered a problem that we described here:

<https://github.com/salesagility/SuiteCRM/issues/3382>

When you select a few items, after which you apply a filter, your selection is lost.

We need to apply a filter, while maintaining the previous selection.

Please contact us if you think you can help with this.

Required skills:

PHP, Javascript, MVC understanding, CRM systems understanding.

Basically you have to look to an open source code and modify it in order to solve the bug. We can provide assistance
