

Highlights:

- Work with a world-class team at the forefront of edge-based Machine Learning
- Great opportunity to contribute, learn, and grow your multi-disciplinary skills
- Mainstream imaging and audio artificial intelligence at the edge
- Reports to Senior Director of Data Management

Throughout our rich history of growing together with our customers in dynamic industries, one thing has always remained the same. Dedicated to enabling extraordinary experiences through development and delivery of innovative technologies in sight, sound, and beyond.

- We enhance the sound experiences in more than 2.5 billion devices. We provide essential imaging technology in over 2.9 billion cameras and smartphones. The solutions and technologies we invented earned a place in more than 95% of the world's smartphones. And, over 100 billion semiconductor chips embody our innovative ideas, helping to enable great performance for devices everywhere.
- And we can't wait to show you what's next.
